

Subject index *WJP* 2005-2006

Acid-base disorders

a programmed method for diagnosis of acid-base disorders, 143

Adolescents

regional and population variability of body mass index among Chinese schoolchildren and adolescents, 29
body mass index percentile curves and cut off points for assessment of overweight and obesity in Shanghai children, 35
chronic renal failure presenting as musculoskeletal pain in a young adult, 67

Adrenal insufficiency

as the underlying cause of skewed cytokine profile in low gestation newborns, 90
hypotension, persistent ductus arteriosus and the underlying adrenal insufficiency in low gestation newborns, 8

Allergy

prevention and treatment of childhood asthma in China, 85 (2005)
clinical types of childhood asthma and nonatopic asthma, 85

Anemia

treatment, efficacy of recombinant human erythropoietin in preventing anemia of prematurity, 199

Anesthesia

anesthetic management of a premature infant weighing 1100g undergoing ligation of the patient ductus arteriosus, 153 (2005)

Angelman syndrome

effectiveness of methylation-specific multiplex ligation and probe amplification assay used for comprehensive molecular diagnosis of Angelman syndrome and Prader-Willi syndrome, 317

Anorectal malformation (ARM)

MRI of anorectal malformations and relationship of the developmental state of the spincter muscle complex with fecal continence, 223
syndromology of anorectal malformations revisited: from patterns of associated malformations to the recognition of syndromes, 8 (2005)

Anoxia

cerebral, time-course of μ -calpain activation, c-Fos, c-Jun, HSP70 and HSP27 expression in neonatal hypoxic-ischemic rat brain, 60 (2005)

Antibodies

clinical characteristics and acetylcholine receptor antibodies in juvenile myasthenia gravis, 108 (2005)
secondary, serum levels of anti- β 2-glycoprotein-I antibodies and anti-cardiolipin antibodies in children with systemic lupus erythematosus, 34 (2005)

Antimicrobial resistance

antimicrobial resistance of *Streptococcus pneumoniae* isolated from children and genetic background of penicillin-resistant strains, 36 (2005)
prevalence of *Helicobacter pylori* resistant to clarithromycin, metronidazole and amoxicillin isolated from pediatric patients in China, 49

Antimicrobial therapy

effect of pingyangmycin emulsion on the microenvironment of infantile proliferating capillary hemangioma, 217

Antiphospholipid syndrome

secondary, serum levels of anti- β 2-glycoprotein-I antibodies and anti-cardiolipin antibodies in children with systemic lupus erythematosus, 34 (2005)

Apolipoprotein

PCR-RFLP in determining apolipoprotein E in children with idiopathic nephrotic syndrome, 117

Apoptosis

effect of pingyangmycin emulsion on the microenvironment of infantile proliferating capillary hemangioma, 217
imbalanced apoptosis and proliferation of intrahepatic bile duct epithelial cells in children with biliary atresia, 212

Asthma

etiology
association of asthma and transforming growth factor- β 1 polymorphism in children, 113 (2005)
effects of IL-13 gene polymorphism on the levels of serum IL-13 and total Ig-E in asthmatic children, 66 (2005)
prevention and treatment
childhood asthma in China, 85 (2005)
clinical types of childhood asthma and nonatopic asthma, 85

Autism

molecular screening of FMR1 mutation among autism patients in China, 285
neuroimmunology of autism, 260
understanding the social meaning of the eyes: is Williams syndrome so different from autism?, 288

BDNF/TrkB activation

the sensitivity of TNF-related apoptosis-inducing ligand in neuroblastoma is increased by higher N-myc level but not blocked by BDNF/TrkB activation, 187

Biliary anomalies

imbalanced apoptosis and proliferation of intrahepatic bile duct epithelial cells in children with biliary atresia, 212
management of congenital choledochal cyst complicated by biliary anomalies and aberrant bile duct, 133

Birth defects

regional disease patterns of birth defects in China: a cohort study on the birth quality of the population, 317

Bladder

the bladder submucosa acellular matrix as a cell deliverer in tissue engineering, 57

Body mass index (BMI)

body mass index percentile curves and cut off points for assessment of overweight and obesity in Shanghai children, 35
regional and population variability of body mass index among Chinese schoolchildren and adolescents, 29

BQ123

influence of BQ123 on synthesis of collagens type I and III in the lungs of rats with left to right shunt pulmonary hypertension, 207

Brain

measurement of urinary S100B protein levels and lactate/creatinine ratio in early detection of neonatal hypoxic-ischemic encephalopathy, 270
neuroimmunology of autism, 260
time-course of μ -calpain activation, c-Fos, c-Jun, HSP70 and HSP27 expression in neonatal hypoxic-ischemic rat brain, 60 (2005)

Brain natriuretic peptide

N-terminal pro-brain natriuretic peptide in the diagnosis of congestive heart failure in pediatric patients with ventricular septal defect, 40

Bronchoalveolar lavage fluid

meconium aspiration increases iNOS expression and nitrotyrosine formation in the rat lung, 61

Calcitonin gene-related peptide

levels of plasma endothelin and calcitonin gene-related peptide in children with congenital heart disease and pulmonary hypertension, 139

Cardiovascular health and disease

levels of plasma endothelin and calcitonin gene-related peptide in children with congenital heart disease and pulmonary hypertension, 139

noninvasive ventilation via bilevel positive airway pressure support in pediatric patients after cardiac surgery, 297

N-terminal pro-brain natriuretic peptide in the diagnosis of congestive heart failure in pediatric patients with ventricular septal defect, 40

postoperative hemodynamics of children with severe pulmonary hypertension caused by congenital heart disease, 45

risk factors of failed extubation after open-heart surgery in infants, 69 (2005)

Cell culture

the bladder submucosa acellular matrix as a cell deliverer in tissue engineering, 57

Cell immunity

effect of eliminating intermittent white blood cells on immunology and cellular factors of systemic lupus erythematosus, 53

Cellular factors

effect of eliminating intermittent white blood cells on immunology and cellular factors of systemic lupus erythematosus, 53

inflammatory cytokines, adrenal insufficiency as the underlying cause of skewed cytokine profile in low gestation newborns, 90

Cerebral palsy

diskinetic, recent advances in, 23

early physical intervention of premature infants to reduce incidence of cerebral palsy: a multicenter clinical investigation, 98 (2005)

Chemotherapy

preoperative chemotherapy combined with transcatheter arterial chemoembolization in treatment of inoperable Wilm's tumor, 135 (2005)

Chromosome disorders

a female infant with hypotonia, developmental delay, transitional hearing loss and 22q13.1 deletion, 303

effectiveness of methylation-specific multiplex ligation and probe amplification assay used for comprehensive molecular diagnosis of Angelman syndrome and Prader-Willi syndrome, 317

exploring a feasible method to diagnose mental retardation in the rural area of Shanxi province, 312

genetic approach to dissecting the mechanisms of Fragile X mental retardation, 312

high resolution microarray comparative genomic hybridization reveals clinically relevant variations frequently occurring outside the known syndrome regions, 315

molecular cytogenetic markers related to prognosis in hematological malignancies, 252

pilot infant screening for Duchenne muscular dystrophy, 312

ring chromosome 14 as a distinct clinical syndrome: a case report, 72

the use of the primed *in situ* labeling technique in the detection of chromosomal subtelomeric region, 316

X-chromosome inactivation patterns in patients with Rett syndrome and the parental origin of priority inactivated X chromosome, 311

X-linked mental retardation: searching for new genes and defining a new syndrome, 311

Chronic health conditions

chronic renal failure presenting as musculoskeletal pain in a young adult, 67

Clinical trial

early physical intervention of premature infants to reduce incidence of cerebral palsy, 98 (2005)

Clubfoot, congenital

treatment, of congenital clubfoot and study of calf muscle histopathology, 143 (2005)

Cognition

understanding the social meaning of the eyes: is Williams syndrome so different from autism?, 288

Collagen

influence of BQ123 on synthesis of collagens type I and III in the lungs of rats with left to right shunt pulmonary hypertension, 207

Congenital conditions

adrenal insufficiency as the underlying cause of skewed cytokine profile in low gestation newborns, 90

hypotension, persistent ductus arteriosus and the underlying adrenal insufficiency in low gestation newborns, 8

levels of plasma endothelin and calcitonin gene-related peptide in children with congenital heart disease and pulmonary hypertension, 139

management of congenital choledochal cyst complicated by biliary anomalies and aberrant bile duct, 133

postoperative hemodynamics of children with severe pulmonary hypertension caused by congenital heart disease, 45

repair of congenital pulmonary vein stenosis, 308

risk factors of failed extubation after open-heart surgery in infants, 69 (2005)

Continence

MRI of anorectal malformations and relationship of the developmental state of the sphincter muscle complex with fecal continence, 223

Creatine kinase

pilot infant screening for Duchenne muscular dystrophy, 312

Development

basic numerical processes in preterms, 102

mental development of high-risk neonates: a long-term follow-up study, 121

Developmental disorders

a female infant with hypotonia, developmental delay, transitional hearing loss and 22q13.1 deletion, 303

neuroimmunology of autism, 260

understanding the social meaning of the eyes: Is Williams syndrome so different from autism?, 288

Developmental dislocation of hip (DDH)

3D-CT for skeletal abnormality in developmental dislocation of the hip with a particular reference to surgical indications, 125

Diabetes mellitus

type 1 diabetes, incidence of type 1 diabetes in children in the Beijing area in the period of 1988-1996 and 1997-2000, 104 (2005)

Diagnosis see also Screening

a programmed method for diagnosis of acid-base disorders, 143

effectiveness of methylation-specific multiplex ligation and probe amplification assay used for comprehensive molecular diagnosis of Angelman syndrome and Prader-Willi syndrome, 317

exploring a feasible method to diagnose mental retardation in the rural area of Shanxi province, 312

value of 16S rRNA microarray detection in early diagnosis of neonatal septicemia, 121 (2005)

Ductus arteriosus

anesthetic management of a premature infant weighing 1100g undergoing ligation of the patent ductus arteriosus, 153

- (2005)
- Duchenne muscular dystrophy**
pilot infant screening for Duchenne muscular dystrophy, 312
- Ductus arteriosus**
persistent, and the underlying adrenal insufficiency in low gestation newborns, 8
- Dyskinesia**
recent advances in dyskinetic cerebral palsy, 23
- Ecstasy**
ecstasy abuse, during pregnancy associated with cerebral leucomalacia in a preterm infant, 73 (2005)
- Endocarditis, infective**
treatment, strategy for surgical treatment of infective endocarditis in children, 132 (2005)
- Endothelin**
endothelin-1 (ET-1), influence of BQ123 on synthesis of collagens type I and III in the lungs of rats with left to right shunt pulmonary hypertension, 207
levels of plasma endothelin and calcitonin gene-related peptide in children with congenital heart disease and pulmonary hypertension, 139
- Epidemiology**
clinical epidemiological investigation of acute lung injury and acute respiratory distress syndrome in children, 117 (2005)
nationwide molecular epidemiologic investigation of hereditary hearing impairment in China, 314
prevention and treatment of childhood asthma in China, 85 (2005)
- Esophageal dual pH monitoring**
simultaneous esophageal dual pH monitoring in children with gastroesophageal reflux and respiratory symptoms, 113
- Ethical issues**
ethical and moral dilemmas in neonates, 88 (2005)
- Face processing**
understanding the social meaning of the eyes: is Williams syndrome so different from autism?, 288
- Flow cytometry**
multi-color flow cytometric analysis of cell surface and cytoplasmic antigens in the diagnosis of acute leukemia in children, 54 (2005)
- Follow-up**
mental development of high-risk neonates: a long-term follow-up study, 121
- Gastrointestinal disease**
pediatric gastroenterology, and nutrition: present and future, 6 (2005)
simultaneous esophageal dual pH monitoring in children with gastroesophageal reflux and respiratory symptoms, 113
diagnosis and treatment of total colonic aganglionosis, 97
- Genetics**
antimicrobial resistance of *Streptococcus pneumoniae* isolated from children and genetic background of penicillin-resistant strains, 38 (2005)
association of asthma and transforming growth factor- β 1 polymorphism in children, 113 (2005)
effects of IL-13 gene polymorphism on the levels of serum IL-13 and total Ig-E in asthmatic children, 66 (2005)
genetic approach to dissecting the mechanisms of Fragile X mental retardation, 312
human leukocyte antigen-DQB1 allele polymorphism in children with *Helicobacter pylori* infection, 109
nationwide molecular epidemiologic investigation of hereditary hearing impairment in China, 314
nuclear modifier gene for the phenotypic expression of the deafness-associated mitochondrial 12S rRNA mutations, 315
PCR-RFLP in determining apolipoprotein E in children with idiopathic nephrotic syndrome, 117
ring chromosome 14 as a distinct clinical syndrome: a case report, 72
the gonadoblastoma gene on the Y chromosome, 314
transcriptome analysis of male embryonic gonads, 313
X-chromosome inactivation patterns in patients with Rett syndrome and the parental origin of priority inactivated X chromosome, 311
- Glucocorticoid**
adrenal insufficiency as the underlying cause of skewed cytokine profile in low gestation newborns, 90
hypotension, persistent ductus arteriosus and the underlying adrenal insufficiency in low gestation newborns, 8
strengthening clinical research into childhood steroid-resistant nephrotic syndrome, 165
- Gonadoblastoma**
the gonadoblastoma gene on the Y chromosome, 314
- Graft versus host disease, chronic**
treatment, clinical characteristics and treatment of chronic graft versus host disease in pediatric patients, 127 (2005)
- Growth hormone**
clinical examples of disturbed insulin-like growth factor signaling: intrauterine and postnatal growth retardation because of mutation of insulin-like growth factor 1 receptor gene, 14
- Growth retardation**
clinical examples of disturbed insulin-like growth factor signaling: intrauterine and postnatal, because of mutation of insulin-like growth factor 1 receptor gene, 14
ring chromosome 14 as a distinct clinical syndrome: a case report, 72
- Heart *see* cardiovascular health and disease**
- Hearing loss**
nationwide molecular epidemiologic investigation of hereditary hearing impairment in China, 314
nuclear modifier gene for the phenotypic expression of the deafness-associated mitochondrial 12S rRNA mutations, 315
a female infant with hypotonia, developmental delay, transitional hearing loss and 22q13.1 deletion, 303
- Helicobacter pylori***
human leukocyte antigen-DQB1 allele polymorphism in children with *Helicobacter pylori* infection, 109
prevalence of *Helicobacter pylori* resistant to clarithromycin, metronidazole and amoxicillin isolated from pediatric patients in China, 49
- Hemangioma**
effect of pingyangmycin emulsion on the microenvironment of infantile proliferating capillary hemangioma, 217
- Hematological malignancies**
molecular cytogenetic markers related to prognosis in hematological malignancies, 252
treatment, indications for hematopoietic stem cell transplantation in the treatment, 5
- Hematuria**
school urinalysis screening in Shanghai, 195
- Hemodynamics**
postoperative hemodynamics of children with severe pulmonary hypertension caused by congenital heart disease, 45
- Hirschsprung's disease**
total colonic aganglionosis: diagnosis and treatment, 97
- Histopathology**
treatment of congenital clubfoot and study of calf muscle histopathology, 143 (2005)
- Homeostasis**
inflammatory cytokines, adrenal insufficiency as the underlying

cause of skewed cytokine profile in low gestation newborns, 90

Human antigen-DQB1

allele polymorphism in children with *Helicobacter pylori* infection, 109

Hutchinson-Gilford progeria syndrome

association of progerin-interactive partners with lamina proteins, 316

Hypotonia

a female infant with hypotonia, developmental delay, transitional hearing loss and 22q13.1 deletion, 303

Hypoxic-ischemic encephalopathy

measurement of urinary S100B protein levels and lactate/creatinine ratio in early detection of neonatal hypoxic-ischemic encephalopathy, 270

time-course of μ -calpain activation, c-Fos, c-Jun, HSP70 and HSP27 expression in neonatal hypoxic-ischemic rat brain, 60 (2005)

ICGCG 2006

conference abstracts, 311

conference report, 319

Immunology

effect of eliminating intermittent white blood cells on immunology and cellular factors of systemic lupus erythematosus, 53

neuroimmunology of autism, 260

Immunosuppressive therapy

clinical characteristics and treatment of chronic graft versus host disease in pediatric patients, 127 (2005)

prevention, diagnosis and therapy of transplant nephropathy in children, 276

Incidence

incidence of type 1 diabetes in children in the Beijing area in the period of 1988-1996 and 1997-2000, 104 (2005)

Infant see also Neonates; Prematurity

a female infant with hypotonia, developmental delay, transitional hearing loss, 303

anesthetic management of a premature infant weighing 1100g undergoing ligation of the patient ductus arteriosus, 153 (2005)

ecstasy abuse during pregnancy associated with cerebral leucomalacia in a preterm infant, 73 (2005)

effect of pingyangmycin emulsion on the microenvironment of infantile proliferating capillary hemangioma, 217

interrupting the transmission of hepatitis B virus from mothers with both positive HBsAg and HBeAg to infants, 30 (2005)

ring chromosome 14 as a distinct clinical syndrome: a case report, 72

risk factors of failed extubation after open-heart surgery in infants, 69 (2005)

Infection

human leukocyte antigen-DQB1 allele polymorphism in children with *Helicobacter pylori* infection, 109

interrupting the transmission of hepatitis B virus from mothers with both positive HBsAg and HBeAg to infants, 30 (2005)

management of congenital choledochal cyst complicated by biliary anomalies and aberrant bile duct, 133

prevalence of *Helicobacter pylori* resistant to clarithromycin, metronidazole and amoxicillin isolated from pediatric patients in China, 49

strategy for surgical treatment of infective endocarditis in children, 132 (2005)

Insulin-like growth factor

clinical examples of disturbed insulin-like growth factor signaling: intrauterine and postnatal growth retardation because of mutations of the insulin-like growth factor 1 receptor gene, 14

Interferon

treatment, the sensitivity of TNF-related apoptosis-inducing ligand in neuroblastoma is increased by higher N-myc level but not blocked by BDNF/TrkB activation, 187

Intervention

early physical intervention of premature infants to reduce incidence of cerebral palsy: a multicenter clinical investigation, 98 (2005)

Ischemia

cerebral, time-course of μ -calpain activation, c-Fos, c-Jun, HSP70, and HSP27 expression in neonatal hypoxic-ischemic rat brain, 60 (2005)

Lactate/creatinine ratio

measurement of urinary S100B protein levels and lactate/creatinine ratio in early detection of neonatal hypoxic-ischemic encephalopathy, 270

Leucomalacia

cerebral, ecstasy abuse during pregnancy associated with cerebral leucomalacia in a preterm infant, 73 (2005)

Leukemia

acute, diagnosis, multi-color flow cytometric analysis of cell surface and cytoplasmic antigens in the diagnosis of acute leukemia in children, 54 (2005)

hematopoietic stem cell, in the treatment of pediatric disorders, 5

molecular cytogenetic markers related to prognosis in hematological malignancies, 252

Lung function and disease

association of asthma and transforming growth factor- β 1 polymorphism in children, 113 (2005)

clinical epidemiological investigation of acute lung injury and acute respiratory distress syndrome in children, 117 (2005)

clinical types of childhood asthma and nonatopic asthma, 85

controlling pulmonary vascular resistance, 15 (2005)

effects of IL-13 gene polymorphism on the levels of serum IL-13 and total Ig-E in asthmatic children, 66 (2005)

influence of BQ123 on synthesis of collagens type I and III in the lungs of rats with left to right shunt pulmonary hypertension, 207

levels of plasma endothelin and calcitonin gene-related peptide in children with congenital heart disease and pulmonary hypertension, 139

mechanical ventilation in clinical management of meconium aspiration syndrome, 264

meconium aspiration increases iNOS expression and nitrotyrosine formation in the rat lung, 61

noninvasive ventilation via bilevel positive airway pressure support in pediatric patients after cardiac surgery, 297

postoperative hemodynamics of children with severe pulmonary hypertension caused by congenital heart disease, 45

prevention and treatment of childhood asthma in china, 85 (2005)

repair of congenital pulmonary vein stenosis, 308

SARS in children, clinical image and differentiation, 45 (2005)

treatment, controlling pulmonary vascular resistance, 15 (2005)

Lung injury

acute, clinical epidemiological investigation of acute lung injury and acute respiratory distress syndrome in children, 117 (2005)

Lysosomal storage disease

diagnosis, treatment, current status of diagnosis and treatment of lysosomal storage diseases in China, 245

Magnetic resonance imaging (MRI)

MRI of anorectal malformations and relationship of the development state of the sphincter muscle complex with fecal continence, 223

recent advances in dyskinetic cerebral palsy, 23

Magnetic resonance cholangiopancreatography (MRCP)

management of congenital choledochal cyst complicated by biliary anomalies and aberrant bile duct, 133

Mental retardation (MR)

exploring a feasible method to diagnose mental retardation in the rural area of Shanxi province, 312

genetic approach to dissecting the mechanisms of Fragile X mental retardation, 312

mental development of high-risk neonates: a long-term follow-up study, 121

ring chromosome 14 as a distinct clinical syndrome: a case report, 72

X-chromosome inactivation patterns in patients with Rett syndrome and the parental origin of priority inactivated X chromosome, 311

X-linked, mental retardation: searching for new genes and defining a new syndrome, 311

Metabolic disease

current status of diagnosis and treatment of lysosomal storage diseases in China, 245

inborn errors of metabolism disease studies using tandem mass spectrometry, 315

metabolic medicine: new developments in diagnosis and treatment of, 169

Molecular cytogenetic analysis

a female infant with hypotonia, developmental delay, transitional hearing loss and 22q13.1 deletion, 303

molecular cytogenetic markers related to prognosis in hematological malignancies, 252

Mutation

clinical examples of disturbed insulin-like growth factor signaling: intrauterine and postnatal growth retardation because of mutations of the insulin-like growth factor 1 receptor gene, 14

molecular screening of FMR1 mutation among autism patients in China, 285

nuclear modifier gene for the phenotypic expression of the deafness-associated mitochondrial 12S rRNA mutations, 315

Myasthenia gravis

juvenile, clinical characteristics and acetylcholine receptor antibodies in juvenile myasthenia gravis, 108 (2005)

NICU

ethical and moral dilemmas in neonates, 88 (2005)

Nitric oxide

controlling pulmonary vascular resistance, 15 (2005)

hypotension, persistent ductus arteriosus and the underlying adrenal insufficiency in low gestation newborns, 8

total colonic aganglionosis: diagnosis and treatment, 97

Nitric oxide synthase

hypotension, persistent ductus arteriosus and the underlying adrenal insufficiency in low gestation newborns, 8

meconium aspiration increases iNOS expression and nitrotyrosine formation in the rat lung, 61

Neonates see also Prematurity

adrenal insufficiency as the underlying cause of skewed cytokine profile in low gestation newborns, 90

anesthetic management of a premature infant weighing 1100g undergoing ligation of the patient ductus arteriosus, 153 (2005)

ethical and moral dilemmas in neonates, 88 (2005)

hypotension, persistent ductus arteriosus and the underlying adrenal insufficiency in low gestation newborns, 8

measurement of urinary S100B protein levels and lactate/creatinine ratio in early detection of neonatal hypoxic-ischemic encephalopathy, 270

mechanical ventilation in clinical management of meconium aspiration syndrome, 264

mental development of high-risk neonates: a long-term follow-up study, 121

multi-factor analysis of umbilical plasma β -endorphin level in neonates, 203

value of 16S rRNA microarray detection in early diagnosis of neonatal septicemia, 121 (2005)

Nephrotic syndrome

effects of doubled dose of glucosides of *Tripterygium wilfordii hook F* for nephrotic syndrome in children, 231

PCR-RFLP in determining apolipoprotein E in children with idiopathic nephrotic syndrome, 117

strengthening clinical research into childhood steroid-resistant nephrotic syndrome, 165

Nephropathy

prevention, diagnosis and therapy of transplant nephropathy in children, 276

Number system

basic numerical processes in preterms, 102

Nutrition

pediatric gastroenterology and nutrition: present and future, 6 (2005)

Obesity and overweight

body mass index percentile curves and cut off points for assessment of overweight and obesity in Shanghai children, 35

childhood obesity: global trends, health complications and prevention needs, 21 (2005)

regional and population variability of body mass index among Chinese schoolchildren and adolescents, 29

Pain

musculoskeletal, chronic renal failure presenting as musculoskeletal pain in a young adult, 67

PCR

BOX-PCR, antimicrobial resistance of *Streptococcus pneumoniae* isolated from children and genetic background of penicillin-resistant strains, 38 (2005)

effects of IL-13 gene polymorphism on the levels of serum IL-13 and total Ig-E in asthmatic children, 66 (2005)

human leukocyte antigen-DQB1 allele polymorphism in children with *Helicobacter pylori* infection, 109

PCR-RFLP in determining apolipoprotein E in children with idiopathic nephrotic syndrome, 117

Penicillin

resistance, antimicrobial resistance of *Streptococcus pneumoniae* isolated from children and genetic background of penicillin-resistant strains, 38 (2005)

Pinyangmycin (PYM)

treatment, effect of pingyangmycin emulsion on the microenvironment of infantile proliferating capillary hemangioma, 217

Prader-Willi syndrome

effectiveness of methylation-specific multiplex ligation and probe amplification assay used for comprehensive molecular diagnosis of Angelman syndrome and Prader-Willi syndrome, 317

Pregnancy

ecstasy abuse during, associated with cerebral leucomalacia in a preterm infant, 73 (2005)

Prematurity

anesthetic management of a premature infant weighing 1100g undergoing ligation of the patient ductus arteriosus, 153 (2005)

basic numerical processes in preterms, 102

ecstasy abuse during pregnancy associated with cerebral leucomalacia in a preterm infant, 73 (2005)

efficacy of recombinant human erythropoietin in preventing anemia of prematurity, 199

Prevalence

- prevalence of *Helicobacter pylori* resistant to clarithromycin, metronidazole and amoxicillin isolated from pediatric patients in China, 49
- prevention and treatment of childhood asthma in China, 85 (2005)
- regional and population variability of body mass index among Chinese schoolchildren and adolescents, 29

Primed in situ labeling technique

- the use of the primed in situ labeling technique in the detection of chromosomal subtelomeric region, 316

Proteinuria

- school urinalysis screening in Shanghai, 195

Public health

- body mass index percentile curves and cut off points for assessment of overweight and obesity in Shanghai children, 35

Purpura

- idiopathic thrombocytopenic, relativity study of thrombopoietin and transforming growth factor- β 1 in children with, 50 (2005)

Radiography

- chest radiography, SARS in children: clinical image and differentiation, 45 (2005)

Recombinant human erythropoietin (r-HuEPO)

- treatment, efficacy of recombinant human erythropoietin in preventing anemia of prematurity, 199

Renal failure

- chronic, presenting as musculoskeletal pain in a young adult, 67

Respiratory distress syndrome

- acute, clinical epidemiological investigation of acute lung injury and, 117 (2005)

Renal osteodystrophy

- chronic renal failure presenting as musculoskeletal pain in a young adult, 67

Retinoblastoma

- trilateral retinoblastoma: a case report, 151

Risk factors

- risk factors of failed extubation after open-heart surgery, 69 (2005)

Screening

- molecular screening of FMR1 mutation among autism patients in China, 285
- newborn screening
- inborn errors of metabolism disease studies using tandem mass spectrometry, 315
 - metabolic medicine: new developments in diagnosis and treatment of inborn errors of metabolism, 169
 - pilot infant screening for Duchenne muscular dystrophy, 312
 - urinalysis screening, school urinalysis screening in Shanghai, 195

Septicemia

- diagnosis, value of 16S rRNA microarray detection in early diagnosis of neonatal septicemia, 121 (2005)

Serial analysis of gene expression

- transcriptome analysis of male embryonic gonads, 313

Severe acute respiratory syndrome (SARS)

- SARS in children: clinical image and differentiation, 45 (2005)
- value of 16S rRNA microarray detection in early diagnosis of neonatal septicemia, 121 (2005)

Sex determining region Y (SRY)

- mechanism of mammalian sex determination, 313

Skeletal abnormality

- 3D-CT for skeletal abnormality in developmental dislocation of the hip with a particular reference to surgical indications, 125

Stem cell

- hematopoietic, in the treatment of pediatric disorders, 5

Submucosa acellular matrix

- the bladder submucosa acellular matrix as a cell deliverer in tissue engineering, 57

Surgery

- open-heart, risk factors of failed extubation after, 69 (2005)
- strategy for surgical treatment of infective endocarditis in children, 132 (2005)
- thyroid cancer in children, 94 (2005)

Symbolic distance effect

- basic numerical processes in preterms, 102

Systemic lupus erythematosus

- serum levels of anti- β 2-glycoprotein-I antibodies and anti-cardiolipin antibodies in children with systemic lupus erythematosus, 34 (2005)

Three-dimensional computed tomography (3D-CT)

- 3D-CT for skeletal abnormality in developmental dislocation of the hip with a particular reference to surgical indications, 125

Tissue engineering

- the bladder submucosa acellular matrix as a cell deliverer in tissue engineering, 57

TNF-related apoptosis-inducing ligand (TRAIL)

- the sensitivity of TNF-related apoptosis-inducing ligand in neuroblastoma is increased by higher N-myc level but not blocked by BDNF/TrkB activation, 187

Transplantation

- hematopoietic stem cell, in the treatment of pediatric disorders, 5
- kidney transplantation, prevention, diagnosis and therapy of transplant nephropathy in children, 276

***Tripterygium wilfordii hook F* (TWH)**

- effects of doubled dose of glucosides of *Tripterygium wilfordii hook F* for nephrotic syndrome in children, 231

Tuberous sclerosis

- recent advances in tuberous sclerosis, 177

Umbilical plasma β -endorphin

- multi-factor analysis of umbilical plasma β -endorphin level in neonates, 203

Umbilical plasma

- multi-factor analysis of umbilical plasma β -endorphin level in neonates, 203

Urinary S100B protein

- measurement of urinary S100B protein levels and lactate/creatinine ratio in early detection of neonatal hypoxic-ischemic encephalopathy, 270

Ventilation

- mechanical ventilation in clinical management of meconium aspiration syndrome, 264
- noninvasive ventilation via bilevel positive airway pressure support in pediatric patients after cardiac surgery, 297

Ventricular septal defect

- postoperative hemodynamics of children with severe pulmonary hypertension caused by congenital heart disease, 45

Williams syndrome

- understanding the social meaning of the eyes: is Williams syndrome so different from autism?, 288

Wilm's tumor

- treatment, preoperative chemotherapy combined with transcatheter arterial chemoembolization in treatment of inoperable, 135 (2005)

World Journal of Pediatrics

- a new life, a new journal, 5 (2005)
